

1998 NURSERY ELIGIBLE PLANT LISTING
CONTAINER GROWN ORNAMENTAL PLANTS
Sacramento Regional Service Office
(Effective ONLY in the state of Hawaii)

SCIENTIFIC NAME	COMMON NAME	SK <u>2/</u>	HZ <u>3/</u>	SUGGESTED STORAGE IN ZONES ^{1/}						
				1-6	7-8	9A	9B	10A	10B	11
Abelia x grandiflora	Glossy Abelia	W1	6-10A	M	M	R	U	U	--	--
Acacia auriculiformis	Earleaf, Acacia	W1	9B-11	--	--	--	M	M	R	U
Acacia choriophylla	Cinnecord	W1	10A-11	--	--	--	--	M	R	U
Acacia confusa	Formosa Koa	W1	10A-11	--	--	--	--	M	R	U
Acacia farnesiana	Sweet Acacia	W1	9A-11	--	--	M	M	R	U	U
Acalypha hispida	Chenille plant	F	8-11	--	M	M	M	R	U	U
Acalypha reptans	Weeping Chenille	F	8-11	--	M	M	M	R	U	U
Acalypha wilkesiana	Copperleaf	F	8-11	--	M	M	M	R	U	U
Acanthus mollis	Bear's-Breeches	H	8	--	M	--	--	--	--	--
Acanthus spinosissimus	Spiny Bear's-Breech	H	7-9A	--	R	R	--	--	--	--
Achillea filipendulina	Fernleaf Yarrow	H	4-10A	R	R	R	R	U	--	--
Achillea millefolium, all cvs.	Common Yarrow	H	3-10A	R	R	R	R	U	--	--
Achillea ptarmica	Angel's Breath	H	4-10A	R	R	R	R	U	--	--
Achillea tomentosa	Wooly Yarrow	H	4-10A	R	R	R	R	U	--	--
Achillea x lewisii	King Edward Yarrow	H	4-10A	R	R	R	R	U	--	--
Achyranthes splendens	Ewa Hinahina	H	10A-11	--	--	--	--	R	U	U
Acoelorrhaphe wrightii	Palm, Everglade	W1	9B-11	--	--	--	M	R	U	U
Acorus calamus	Sweet Flag	H	5-8	R	R	--	--	--	--	--
Acorus gramineus	Japanese Sweetflag	H	8-11	--	M	R	R	U	U	U
Acorus gramineus var.	Whitestripe Japanese	H	8-11	--	R	R	R	U	U	U
Acrostichum daneifolium	Fern, Swamp	H	9A-11	--	--	R	R	U	U	U
Actinokentia diraricata	Palm, Actinokentia	F	9A-11	--	--	M	M	M	R	U
Actinorhysis callapparia	Palm	F	9A-11	--	--	M	M	M	R	U
Adansonia digitata	Baobab	W1	10A-11	--	--	--	--	M	R	U
Adansonia gregorii		W1	10A-11	--	--	--	--	M	R	U
Adenanthera pavonina	Coralwood	W1	10A-11	--	--	--	--	M	R	U
Adenium obesum	Impala Bush	F	8-11	--	M	M	M	M	R	U
Adiantum capillus-veneris	Fern, Venus Maidenhair	F	8-11	--	M	M	R	R	U	U
Adiantum raddianum	Fern, Ocean Spray, Delta	F	8-11	--	M	M	M	M	R	U
Adiantum spp.	Fern, Maidenhair	F	8-11	--	M	M	M	M	R	U
Aechmea fasciata	Bromeliad	F	1-11	M	M	M	M	M	R	U
Aechmea, other spp. and cvs.	Silver Vase	F	1-11	M	M	M	M	M	R	U
Aeschynanthus spp. & hyb.	Lipstick Plant	F	1-11	M	M	M	M	M	R	U
Agapanthus africanus	Blue African Lily	H	8-11	--	M	M	M	R	U	U
Agapanthus, all other sp. & cvs.	African Lilies	H	8-11	--	M	M	M	R	U	U
Agave americana	Century Plant	W1	8-11	--	M	M	M	R	U	U
Agave angustifolia		W1	8-11	--	M	M	M	R	U	U
Agave attenuata	Dragon Tree Agave	W1	8-11	--	M	M	M	R	U	U
Agave spp.	Century Plants	W1	8-11	--	M	M	M	R	U	U
Ageratum houstonianum	Floss Flower	H	7-11	--	M	M	R	R	U	U
Aglaonema 'Maria'	Maria Aglaonema	F	1-11	M	M	M	M	M	M	R
Aglaonema 'Silver Queen'	Silver Queen Chinese Evergreen	F	1-11	M	M	M	M	M	M	R
Aglaonema, other spp. & cultivars	Chinese Evergreens	F	1-11	M	M	M	M	M	M	R
Aiphanes acantophylla	Palm, Aiphanes	F	10A-11	--	--	--	--	M	R	U
Ajuga genevensis	Geneva Bugle	H	3-9B	R	R	R	U	--	--	--
Ajuga reptans	Carpet Bugleweed	H	3-10A	R	R	R	U	U	--	--
Ajuga reptans 'Purpurea'	Purple-Leaf bugleweed	H	3-10A	R	R	R	U	U	--	--
Albizia julbrissin 'Rosea'	Mimosa Tree	W1	7-10A	--	R	R	U	U	--	--
Aleurites fordii	Tung Oil Tree	W1	9A-11	--	--	M	M	R	U	U
Aleurites moluccana	Kukui, Candlenut Tree	W1	9B-11	--	--	--	M	R	U	U
Allamanda blanchetii	Purple Allamanda	W1	10A-11	--	--	--	--	M	R	U
Allamanda cathartica	Common Trumpet	W1	10A-11	--	--	--	--	M	R	U

be grown on benches or in some other way raised a minimum of 4” off the ground.

*** = Disease losses due to *Cylindrocladium* will not be considered an insured cause of loss unless evidence of a disease protection program with currently labeled efficacious fungicides was followed. This evidence MUST be provided by the grower.

^{1/} Defined in the USDA Plant Hardiness Zone Map, Miscellaneous Publication No. 1475, USDA Agricultural Research Service

^{2/} Storage Key for eligible plants
W1 - Refer to Woody Part 1 Storage Key
W2 - Refer to Woody Part 2 Storage Key
F - Refer to Foliage Storage Key
H - Refer to Herbaceous Storage Key

^{3/} Hardiness Zone - The zone range where it is practical to grow the plant using the storage key provisions for protection.

STORAGE KEYS

Woody Part 1 (W1) Storage Key

- Not grown due to cold hardiness limitations and practicality of protection required or not grown due to high temperature tolerance limitations

Hardiness Zones 1-6

M- Mandatory winter protection

Storage Structures such as:

1. Poly covered walk-in Quonset Houses AND Supplemental Heat with irrigation available OR Thermo-blankets OR Poly liners (blankets)
2. Storage barns proven satisfactory in past

R- Recommended winter protection

Storage Structures such as:

1. Poly covered walk-in Quonset Houses OR
2. Low Hoop Houses OR
3. Pit frames covered with poly and snow fence or equivalent OR
4. Outside beds covered with thermo-blankets and poly OR
5. Storage barns or buildings, proven satisfactory in previous seasons
6. Trees - Gathered together plant or container tight, protected around the perimeter with straw, plastic or other barrier and containers mulched

U- No winter protection required

Move plants together and provide irrigation when needed

Hardiness Zones 7-8

M- Mandatory winter protection

Storage Structures such as:

1. Poly covered walk-in Quonset House AND
2. Supplemental heat and functional irrigation OR
3. Poly liners with functional irrigation OR
4. Thermo-blankets covered with poly

R- Recommended winter protection

Storage Structures such as:

1. Poly covered walk-in Quonset House with functional irrigation during winter months
2. Narrow pit frames covered with poly and snow fence or equivalent
3. Outside beds covered with thermo-blankets
4. Trees - Gathered together plant or container tight, protected around the perimeter with straw, plastic or other barrier and containers mulched

U- No structural winter protection required; however, recommended moving plants together and providing irrigation when growing media is dry and weather permits

Hardiness Zones 9-10

M- Mandatory winter protection

1. Overhead irrigation with sprinklers capable of providing complete coverage of the crop throughout the duration of freezing temperatures
OR
2. Plastic film covered structures without heat or overhead irrigation
OR
3. Plants covered with thermo-blankets or white poly during periods of cold temperature. Over-sized containerized plants should be laid on their side prior to covering.

NOTE: If wind conditions prevent effective use of overhead irrigation, either strategy #2 or #3 MUST be followed.

NOTE: The storage temperature must be established to prevent ABOVE FREEZING low temperature damage to the species being produced, including protection from dry, desiccating winds, either by covering the plants, use of overhead irrigation, or wind blocks.

R- Recommended winter protection

1. Irrigation - overhead sprinklers OR
2. Plastic film covered structures without heat or overhead irrigation OR
3. Plants covered with thermo-blankets or white poly during periods of cold temperature.

U- No winter protection required

Hardiness Zone 11

U- No winter protection required

-- Not grown due to cold hardiness limitations and practicality of protection required or not grown due to high temperature tolerance limitations

M- Mandatory winter protection

Overhead irrigation with sprinklers capable of providing complete coverage of the crop throughout the duration of freezing temperatures

R- Recommended winter protection - overhead irrigation from sprinklers

R1- Recommended winter protection

Plants pot-to-pot (jammed) plus wind barrier strip around edge of block

R2- Recommended winter protection

Plants pot-to-pot or outside with plastic film (usually white) pulled over the block only during periods of extreme cold

U- No winter protection required

Woody Part 2 (W2) Storage Key

-- Not grown due to cold hardiness limitations and practicality of protection required or not grown due to high temperature tolerance limits

Hardiness Zones 1-8

M- Mandatory winter protection - Plastic film-covered structures plus overhead irrigation with sprinklers or mist or plastic film-covered structures plus heaters

R- Recommended winter protection - Overhead irrigation from sprinklers

R1- Recommended winter protection - Plants pot-to-pot (jammed) plus wind barrier strip around edge of block

R2- Recommended winter protection - Plants pot-to-pot or outside with plastic film (usually white) pulled over the block only during periods of extreme cold

U- No winter protection required

Hardiness Zones 9-11

- M- Mandatory winter protection - Overhead irrigation with sprinklers capable of providing complete coverage of the crop throughout the duration of freezing temperatures
- R- Recommended winter protection - Overhead irrigation from sprinklers
- R1- Recommended winter protection - Plants pot-to-pot (jammed) plus wind barrier strip around edge of block
- R2- Recommended winter protection - Plants pot-to-pot or outside with plastic film (usually white) pulled over the block only during periods of extreme cold
- U- No winter protection required

Foliage (F) Storage Key

-- Not grown due to cold hardiness limitations and practicality of protection required or not grown due to high temperature tolerance limitations

M- Mandatory

Hardiness zones 1-9B - Plants to be stored in a greenhouse, covered with glass or plastic film, equipped with irrigation and a heating system

Hardiness zones 10A-11 - Plants to be stored in a shadehouse covered with plastic film during the cold season and equipped with irrigation and a heating system

For all zones - The storage temperature should be established to prevent low temperature damage to the species being produced

R- Recommended

Plants to be stored in a shadehouse covered with plastic film during the cold season and equipped with heaters and/or irrigation mist nozzles under benches and over roadways

U- No winter protection needed

Herbaceous (H) Storage Key

-- Not grown due to cold hardiness limitations and practicality of protection required or not grown due to high temperature tolerance limitations

M- Mandatory winter protection

Plastic film covered structures plus overhead irrigation with sprinklers or mist or plastic film covered structures plus heaters

R- Recommended winter protection - Overhead irrigation from sprinklers

U- No winter protection needed
